

# DEATH OF THE PARTY

The new Hidden Identity game with a murder mystery theme.

You are attending a party for famous detectives, but it's more than it seems—in the invitation, the host threatened to reveal a secret about one of the sleuths, but once everyone arrived, he was killed.

It's up to the partygoers to determine the killer, or killers, and bring them to justice without getting murdered themselves.

**DEATH OF THE PARTY** supports 4 to 9 players, across 2 or 3 rooms.

Most party games can end the party atmosphere, as everyone sits down around a table to play. Instead, players roam between rooms and mingle with each other as part of the game.

Randomly selected Identities lead to unscripted results, so you'll want to play again and get a chance to kill your friends.

It's a party game that feels like a party!

**DEATH OF THE PARTY** comes with Persona Cards for parody versions of 10 famous detectives from movies and literature, as well as the Butler and Server.

The game can be played in 30 to 60 minutes, and is appropriate for adults and teens.
